**BH1845T — Beacon Hill Thermory® Receptacle with Open Top**

**45-gallon receptacle with Thermory planks, open top, plastic liner and rubber feet**

**Material**

The receptacle is 35.01" tall and is composed of nominal 1" x 4" Thermory planks with choice of horizontal or vertical plank placement and an extruded aluminum frame. Flexible modular design allows for customization; call for information.

The top is made from 11-gauge steel with a 12.63" square waste opening and lifts off for easy waste disposal.

The receptacle is designed to be portable for flexibility in placement or surface mounted using .50" pre-drilled holes in the base to prevent movement. The rubber feet are adjustable to assist in leveling the receptacle. The reusable plastic liner is made of high-density polyethylene. The mounting hardware is not included.

Low-maintenance Thermory is made from thermally-modified North American White Ash—a sustainably-harvested and renewable temperate hardwood. It is an environmentally-friendly hardwood and a great alternative to commonly used tropical rainforest hardwoods because of its dimensional stability and Class 1 durability (25+ years). Thermory has a lower carbon footprint than tropical hardwoods.

**Finish**

Fade-resistant, powder coated steel and aluminum components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Thermory is a lustrous chocolate brown color when new and will naturally age to uniform silver/gray over time. The color-changing process begins immediately and varies with the amount of UV-exposure.

**Color**

See website or sales representative for color choices.

**Assembly**

The receptacle ships fully assembled and ready for use.

**Maintenance**

Clean with mild soap and water. Let dry thoroughly. To maintain original color, regularly apply standard deck oil, such as Cutek® Extreme Wood Protection Oil.

**Warranty**
