RF4000 — Signature 4' Flat Bench

4' flat bench with perforated steel seat and side panels and aluminum portable/surface mount legs

Material

The 4' flat bench is constructed using aluminum legs with 14-gauge perforated steel seat and end panels. Seat and end panels have a .5" square perforated design. The steel seat is 46" long with an overall bench length of 57.05". The bench seat will support 200 lbs. per linear foot.

The leg posts are made of formed aluminum and have plastic caps to protect the floor or supporting surface.

The bench is designed to be portable for flexibility or surface mounted to prevent movement; surface mount hold down kits are included.

Finish

Fade-resistant, powder coated aluminum and steel components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

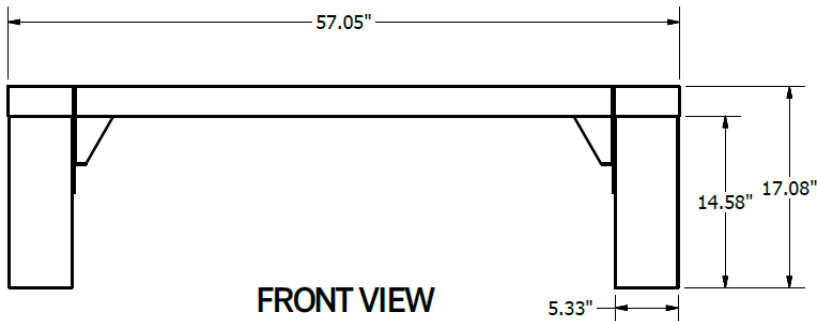

The bench requires some assembly. Stainless steel assembly hardware is included.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty with 7-year finish warranty against fading from the date of purchase. See full details on multi-year warranties for components at www.anovafurnishings.com/warranty.aspx.
